

The follow up to 1 of our most popular packs from last year is here: Emo Pop Vibes 2.

What really makes this pack so unique, is that there aren't many sample packs out there in this genre, especially the deep emotional vocals and useful Emo Pop instrumental sample content, characterized by an accent on emotional utterance.

Emo Pop is the music which has been pioneered by artists like: juice wrld, the kid laroi, iann dior and others and combines chilled beats and instrumentals with emotional vocals and raps.

Emo pop is a fusion between emo, emo rap and pop punk.

Except to find melody & chord guitar & piano loops, moving synthleads & chords, groovy basslines, creative top line melodies, drums, synth one-shots, royalty-free vocals / raps using personal lyrics concerning adolescence, relationships, and heartbreak and much more.
