

Ethereal Techno contains 801mb of new fresh 285 loops and hits.

Inspired by a mixture of ambient, dark and melodic vibes, this is the ultimate melodic techno samplepack.

All the samples and loops were created by analogue synths such as: Roland Juno-60, Roland SE-02, Moog Matriarch, Moog DFAM, Moog Mother-32, ARP Odyssey, Korg Monologue, Elektron Analog Keys, Behringer Neutron and Waldorf Blofeld.

The drums and drumloops were created by Elektron Machinedrum, Elektron Analog Rytm, Arturia DrumBrute Impact and Roland TR-08.

All the content was then processed by warm hardware equipment to offer you the best samples. Equipment used: Roland Space Echo RE-201, Sherman Filterbank, Moog Ten Band Graphic Equalizer, Moog MF-102, MF-103, MF-108, Empress Reverb and Elektron Analog Drive.
