

**'What About: Ethnic EDM Vocals' is a brand new and long-awaited product by W. A. Production. Inside this pack you will find eight Construction Kits with rare ethnic/oriental situated vocals.**

Each Kit is also supplied with exclusive ethnic/orchestral melody loops and percussion. This ultimate must-have library is inspired by the latest Spinnin'/Revealed releases by KSHMR, Headhunterz and others. All 100% Royalty-Free.

Authentic ancient Oriental melodies are one of the most powerful elements of this great pack and allow you to bring something special and extraordinary to your mixes.

Only the best and the biggest drum samples, synths, FX and original vocals are in this pack. Every single track has a different vibe and includes verses, builds and drop melodies to offer you a huge range of possibilities.

Also included are two tutorials by Redhead Roman.
