

Datacode presents “FOCUS: Tech House Vocals” our latest and first-ever Vocal pack! Our focus in creating this pack was to deliver the most authentic, original and current vocal samples designed for G-House, Tech House, Trap and more! Tech House Vocals is loaded with 100 unique vocal phrases, one-shots and also includes 64 Glitch / FX variations for extra madness. You will also find 5 Song Construction Kits ready to go the moment inspiration strikes!

The Vocal samples consist of many original phrases and one-shots that can be pieced together to create unique hooks and add that essential character to your tracks. Each vocal has an authentic vibe and vinyl sound with a variety of lo-fi, pitched down, male, female, glitched, delay fx and more.

You can also expect to find 5 Construction Kits from the audio demo, complete with all the drum loops, percussion, basslines and synths broke down into stems so you can easily mix and match the tempo labelled loops to create your own grooves. Includes deep kick drum loops with crispy hi-hats, claps and top loops, ultra-low subs and cutting synths.
