

'Festival Ammo Bundle (Vols 1-3)' from Baltic Audio combines the first three volumes of these banging EDM and Progressive House Construction Kit products, including tonnes of up-to-date samples, MIDI and Spire presets.

This over 3.5 GB bundle pack is inspired by Dmitri Vegas & Like Mike, David Guetta, Showtek, Tiesto, Avicii, Hardwell, R3hab, Sick Individuals, and many more.

You'll find piano loops, guitar loops, synth loops, bass loops and vocal loops in WAV and MIDI formats, drum and percussion samples, FX, and many bass and synth shots, plus 50 presets for the Spire synthesizer, leaving nothing to be desired.

Besides EDM and Progressive House, this pack is also a very useful tool for Deep House, Future House, Pop and other popular genres.
