I have created a brand new full vocal uplifting trance template for Ableton, Cubase and FL Studio that nails the typical uplifting vocal trance sound with rolling hi-bassline parts, energetic synths, a beautiful chord progression and melodies, and of course a lush vocal section.

You can learn from this project and use presets, sounds, mixing techniques etc in your future projects but YOU CAN'T use melodies & vocals - These items are copyrighted by Aley & Oshay.

WHAT DO I GET ?

• DAW Template, as heard in the demo
• All MIDI and Audio channels with FX chains and mixing included
• All the MIDI files included
• All the Audio files included
• All the Synthesizer presets included

FEATURES

• All sections are color-coded and named correctly so you know exactly what you are looking at.
• 100% Royalty Free : you can use any element from this template in your own productions
• Sounds exactly like the audio demo
• Uses Spire, Sylenth1, Massive

WHAT CAN I LEARN FROM THIS PRODUCT ?

• Study how the track was created and how the different layers / parts interact with each other
• Learn from studying each individual track (MIDI / Audio)
• Find out how the mixing was done, and how each track was processed
• Learn how the melodic patterns were designed
• Learn from the synth presets included, which settings were used to make each type of sound
• Get inspired for your own productions
• Overall, an excellent way of learning more about producing Vocal Trance Music

WHAT DO I NEED TO OPEN THESE TEMPLATES ?
• Ableton Live 9.6.2 or higher, Cubase v5.1 or higher, FL Studio v20.0.3 or higher

- Lennar Digital Sylenth1 v2.21 or higher
- Reveal Sound Spire v1.1.14 or higher
- LFOTool v1.0.0 or higher
- ArtsAcoustic Reverb v1.6.0.0.15 or higher
- NI Massive v1.4 or higher
- TruePianos v1.9 or higher
- Bionic Delay v1.3 or higher
- Fabfilter Pro Q v2.0 or higher (Cubase Only)
