

As cool as ice it's Frosty Future Bass from Big EDM. Feel the chill of the smooth sultry bass lines and allow our brilliantly composed melody loops to refresh and reinvigorate your senses. Select a relaxing vibe, go uplifting, or roll in with the shadows on a winter night.

The melody loops include sounds from instruments such as an organ, tropical steel percussion, warmly overdriven bass, curious chimes, muscle-melting pads, detuned strings, bright and brisk synths and whirling momentum building risers and sweeps that will knock you off your feet. We've also included complex hi-hat patterns, 808's that are smooth and boomin, kicks that bump and thump and 54 of our preset recipes for Serum.

You've got the imagination for creation we've got the sounds to take your production to the top.

Perfectly crisp and clearly rendered with plenty of headroom for you to shape and shift the sounds into your own magnificent audio. Professional producers, professional sounds. From start to finish your tracks will sound as if they were made in a high-end studio.

Every tool you need to create Future Bass has been included. Plus a little extra for you to build upon and make your own. Don't settle for low-quality audio samples to represent your EDM vision, get sounds created by the pros, pick up Frosty Future Bass from Big EDM.

Inspired by such artists as Flume, San Holo, Illenium, ODESZA
