

**'What About: Future Bass & Trap Ammo' is a titan pack inspired by the most famous future / trap tunes and producers out there. Drums, Serum Presets, FL Studio Templates, Construction Kits, Chord Progressions and much more awaits you right here.**

800 MB and 500+ sounds, that is what the W. A. Production team has prepared for you. We are very proud to present you such a complex and must have pack.

67 superb Serum presets will take your production to a higher level and will give your sound the right deep and melodic feeling.

The 3 templates included are created from scratch and inside are an enormous amount of super powerful techniques that you can easily learn and use. As always, all of these sounds are 100% Royalty-Free and there are endless amounts of possibilities that you can do with these projects.

Together with each FLP is also provided Construction Kit, that includes all MIDI files and Presets.

If you are looking for drum sounds and Loops, you will love the drums folder, that contains 264 perfectly created Kicks, Snare, Claps, Drum Loops, Percussion, Toms, Hihats and more!

Also included are bonus Vocal Loops.

In case you need some instant inspiration just go ahead and visit the MIDI folder, where you will find 40 exclusive melodies and chord progressions.

In short, this pack is something that is absolutely unique and W.A. Production are super proud to present it to you. This library will take your production to an absolutely different level, so enjoy.

2 useful tutorials included.
