

## Future Bass House – Audio Wav Pack

Future Bass House by Biome Digital contains everything you need to create floor pounding Bass anthems. This crossover pack draws influences from many genres of dance music including Trap, Future Bass, Dubstep, Garage, EDM and more!

Future Bass House features 7 full construction kits and includes Drum Loops, Bass Loops, Music Loops, Vocals, Sound Effects, Midi Files, REX2 Loops and a load of carefully recorded One Shot sounds for your samplers.

You'll find club-ready kicks, big brassy stabs, bubbling Garage basslines, beautiful chords and melodies, vocal chops and effects as well as a ton of pounding drum loops!

All kits are broken down into their component parts and loops have been recorded with variations including wet/dry, kickless drum loops, filtered versions and more to give you maximum control. All loops are well organised and contain the bpm and key in the file names.
