

Big EDM is giving you something Stellar, Future Bass Stellar. 5 construction kits (+ FL Studio templates) will give you control of how the pieces come together. Enhance the track with any of the various additional one hits and loops to really make it unique. Apply any of the elements to your own existing track or construct your own future bass creation. With this pack, it will be nothing short of stellar. Our kits and sounds are designed to make your music evolve into a broader spectrum of time and space. Offering plenty of warm bounce, modulated bass, and an articulated focus on a pure, deep, and driving melody.

Arpeggiated chords mold together in a harmonious balance with soulful rhythms. Experience a breathtaking and intense burst of inspiration as you begin to fill your musical canvas with brilliant and bright sounds that resonate with each of the senses.

Take a look into the production of not 1 but 5 future bass tracks and discover the secrets of its creation from inception to completion. Make any modifications that you would like. Mix and manipulate your way through over 1GB of sounds that will make your possibilities endless.

Our sound designers are hands-on and ears open creating only the best audio samples at the highest quality utilizing the latest technology. If you want sounds that allure and captivate and you want your mix to be stellar. Pick up Future Bass Stellar from Big EDM.
