

'Future Bounce Melodies Vol 6' brings you another set of 40 melody Kits splitted into bass, chords and lead MIDI loops. This pack was inspired by artists such as Mike Williams, Mesto, Brooks, Justin Mylo, and many more.

Creating the perfect melody can take sometimes hours and hours, so don't waste your time and use these melodies for inspiration for your next Future Bounce track.

Because all melodies were separated into different parts, this pack contains 120 MIDI files in total, and you'll definitely find help when you have any troubles when making catchy Future Bounce melodies or finding the right chord progressions.

This pack was made again by one of Essential Audio Media's best Future Bounce producers who also made an official remix for Alan Walker and knows exactly how to make catchy melodies.
