Future Bounce, like most genres of EDM, has a very foggy history so try to keep up with this explanation. Future Bounce, sometimes referenced or rather called Future House by some people, emerged around 2010 in the United Kingdom. Adapted by using the techniques of UK Garage, Deep House and Fusion, Future Bounce has taken over a lot of the EDM scene. Producers like Don Diablo, Kerri Chandler, Mike Williams, Mesto, Curbi and Swanky Tunes have used broad techniques into crafting their own style of Future Bounce in 2014. In the clubs all over the world, Future Bounce is the leader of hyping crowd. With the punchy kicks, slappy snares and groovy melodies, Future Bounce is hypnotic to listen to. Big EDM – Future Bounce 3 can provide that exact feeling!
