

Professional quality and superior sounds. That is what you'll get with Future House Voodoo from Big EDM. Create stellar future house tracks that will delight the senses and gather a crowd. We are putting the future house sound in your hands with the hottest sounding audio samples and construction kits made specifically for a future house.

What are Construction Kits?

These kits are similar to a remix pack. We are giving you 5 completed tracks that have the instrument and drum tracks separated. You can slice them, rearrange them, add in what you want and toss out what you don't. It's easy. Simply import the stems into your DAW. We've labeled everything so no need to have to figure out what the BPM is or what Key it is in.

To make it even more customizable we have included a full library of additional sounds. This includes sharp synth shots, big and powerful pianos, awesome saws with plenty of attacks, spacey arpeggios, machine-gun fire, snare rolls, one-shots of a variety of kicks, snaps, claps, and cymbals. Extra melody loops and strong bass lines that are ready to be layered for that signature Future House sound.

If you want real audio samples that you can use in your tracks to submit to a label, shake the speakers at the club, or stream online, look no further. Pick up Future House Voodoo from Big EDM.

Inspired by such artists as Don Diablo, Tchami, Hardwell, Malaa and more.
