

Ever wanted to make an energetic future house track? The sounds of big horns, exhilarating build-ups, and upbeat danceable drum loops await you inside the latest release from Big EDM. Future House Aurora has a solid collection of perfect sounding leads, bass lines, snare rolls, and more. Layer your way to future house heaven with over 100 different synth and bass loops.

Immerse yourself in a library of sounds that will electrify your skills and make your style shine. With such a great and diverse selection of instrumentation, you'll have everything you need to give your track its own unique individuality.

You will find grove bass lines that capture that future house vibe as well as a refreshing blend of staple sounds mixed with a modernized method. Also included are the tools to create captivating melodic breaks, presets for Serum, Spire, and Sylenth1 that you can use or customize. Future House Aurora was designed to jump-start your creative process while giving you the professional results you want with unsurpassed quality.

Don't worry about tomorrow because it will soon be the past. Ignite your mix and ascend into the future of house music with Future House Aurora from Big EDM.
