

The ultimate melodic injection for future house anthems: 101 super-charged Spire patches and 90 MIDI motifs.

If you're inspired by the sounds of Don Diablo, EDX, Mr. Belt & Wezol, Oliver Heldens and Twoloud, then is this the pack for you.

Locked and loaded with fat 'n' funky FM bass, stacked portamento synths, anthemic arpeggios, neo-retro chords, wide pads and slick sequences it's an of-the-moment arsenal of synth firepower for Reveal Sound's Spire.

And to spark your inspiration we've also bundles in 90 key-labeled MIDI workouts covering bass lines, arpeggios, leads, chord progressions, pad sections and synth sequences. Each MIDI is named to match an associated Spire patch but all files can be mixed and matched at will to create your own unique sound.
