

Audentity Records proudly presents: Future House Music 6.  
Future House and its subgenres have still been very popular during the last years and it seems the hype still continues with producers like Tiesto, Oliver Heldens, Don Diablo, Meduza still releasing the genre.

Expect a nice musical and dance floor minded sample collection with future house piano stabs and chrystal clear melody loops, crazy driving basslines and melodies, fat drums and drumloops and of course Serum presets.
