Big EDM Future Pop Passion is a one of a kind beast, with amazing samples like Kicks, Toms and Snares to Melody samples, this pack is guaranteed to change the over sound of your mix and boost it to the max!

This pack is stuffed fool of amazing resources like Construction Kits. Construction Kits are designed to show producers like yourself how the arrangement of a track is done using stems. With our Construction Kits, you get all the stems used to create the mini track, as well as the MIDI used.

The Construction Kits come in different tempos as well, so you can learn the fundamentals of each tempo and see how the arrangement and writing of the melodies changes.

Big EDM Future Pop Passion also comes with BONUS content, like the Melody Loops and Synth Shots. We included these BONUS samples to add some extra zest to the pack, and to make sure you get all the resources you need to make that next killer Future Pop track!
