

**'Future Psytrance Assimilation for Serum'** by Elevated Trance features 128 x Psytrance Serum Presets, FL Studio Demo Templates, and Demo MIDI Multitracks with Stems, Samples, and Presets Used.

Future Psytrance, a progressive evolution of the Psychedelic Trance genre, blends traditional psytrance elements with futuristic sounds and modern production techniques. It's characterized by its high energy, complex layered melodies, and cutting-edge synthesizer work, creating a deeply immersive and hypnotic soundscape. This genre often incorporates elements from various electronic music styles, leading to a more polished, refined, and dynamic sound. The tempo typically ranges from 140 to 150 BPM, providing a fast-paced rhythmic foundation that drives the music forward. Future Psytrance is designed for the dance floor, offering listeners a transcendent experience that combines the spiritual essence of psytrance with the innovative possibilities of electronic music production.

This sound set is full of top-quality Psytrance sounds for your current or next projects, containing Acids, Drives, FX, Leads, Mid Bases, Pads, Plucks, Sub Bases, and Sub Pads to bring your tracks bang up-to-date, we have also included the demos as MIDI multi-tracks with presets used for each demo, samples, and stems just import into your DAW if you don't own FL STUDIO, a MIDI multi-track is one MIDI file which when imported loads all MIDI channels needed for that demo.
