

Big Sounds 'Future Rave Vol.3' sample pack features loops, MIDI files, Serum Presets, full wav stems files, and shot samples. This future rave sample pack has it all to help you to create your future rave track.

'Future Rave Vol.3' was inspired by David Guetta and Morten, and bringing you the latest update sounds for future rave genre.

Inside this sample pack, you will find 5 Construction Kits. All Kits include the bass loops, synths, leads and FX's including uplifters, risers, downlifters, impacts, drum loops, vocal chop loops, and the final mixdown from demo song.

MIDI files are included for all melodic elements so you can edit the MIDI files and make your own melodic ideas.

You can drag and drop the wav stems inside your DAW and with no time you can start building your song easily. Wav loops are also included plus the drum hits.

For producers that want to have more control with sound design, we have including the serum presets for each construction kit.

Please note: For the serum presets you will need Serum v1.298 or higher.

Everything you get is Royalty-Free! Buy once and use in any of your projects in as many combinations as you want. Compatible with all DAWs.
