

“Future Synthwave” - Synthwave is a genre that draws from the music of the 80s, what if you combine retro sounds with modern style? This pack has everything we know of the Synthwave, but much more powerful. If you are looking for something fresh, unique, this package is for you.

Apart from Synths, Drums, Bass, and FX's sounds, we also recorded catchy vocal parts with Kristina. Such vocals are a great way to fill your mix with natural sound. In addition to the classic Adlibs, you will also find vocals atmosphere, vocal melodic loops, FX's.

---
