

The sound of real guitar riffs and the best house music together in 1 great new samplepack.

Our new samplepack includes a total of 49 guitar riffs played by a session guitar player + 7 FULL construction kits with midis, presets and one shots of the used sounds.

This pack has that typically warm laid-back Guitar House Music, which everybody is looking for at the moment.

The pack is loaded with 7 complete construction kits with all the necessary tools to make your own track.. Not only did we process the stems of the kits, but we also made one shots of the most important sounds and drums.

Of course we add the midis and some of the presets we used. All Royalty Free!

As an extra bonus we made 23 new exclusive Guitar riffs, Check demo 2. Just drop them in your DAW or sampler and finish that new dance hit of yours.
