

'Hands Up Classix Vol 1 (baltic audio Edition)' by CESA SAMPLES includes 48 presets for Sylenth1 capturing the sound of classic Hands Up and Dance of the 2000s. You'll find hand-crafted leads, basses, plucks, pads and more.

All presets and sounds which you can find in the pack are professionally mixed and ready to use, made with incredible precision, quality and recognizable sound.

In the same way as for the "Mythical Dance Presets Vol.1" soundbank, this edition includes fewer presets than the original edition's 68, and does not contain any samples or MIDI files, which explains its reduced price!

Popularized first in Germany Hands Up started spreading into rest of the European countries and world with artists such as:

Rob Mayth, Manian, Jens O, TI-MO, Special D, Groove Coverage, Basshunter, Paffendorf, Cascada, Dj Gollum, De-Grees, The Hitmen, Darude, and many others.

If you are looking for sounds related to the 2000s, the Hands Up Classix Vol.1 (baltic audio Edition) is a must have!
