

Trance Euphoria are proud to bring you the second pack in this series **'Hands Up MIDI Anthems 2'**
Featuring 50 x 8 Bar MIDI Files for all you faster paced trance producers.

Inspired by all the Euro, Trance, Happy Hardcore & Hardstyle artists from around the globe these MIDI files will propel you to the next level and surely give your tracks the edge.

These MIDI files will give you a great start to build your next track or could be a great edition to your existing projects to give you another direction or dimension to your tracks.

Why MIDI And Not WAV?

With MIDI you have the ultimate format where you can re-arrange notes, velocities, transpose, change MIDI lengths etc and assign your own VST Instrument or Hardware of your choice all this without any audio issues, to do this with audio wav file is virtually impossible or would take some messing about to achieve and with some specialist tools which cost a fortune and the results are not always the best with some audio material, having MIDI changing or keeping the same sound assigned and moving notes about is a breeze and takes no time at all and your audio always stays the same quality you set, also having 50 melodies at your disposal you could have the potential of 50 new tracks, surely these MIDI files will give you that creative edge you're looking for to your next hit.
