

Happy Hardcore sample pack is your complete set for producing truly hardcore tracks. With our high-quality vocals, loops, midis, and presets, you'll be ready to make any track sound like the best hardcore tunes at the top of the charts.

Inside this pack you will find 5 construction kits, all sounds are labelled into bpm and key scale for an easy workout. You can find drum loops, fx, bass, leads, plucks, melodies, and vocals to spice up your tracks. We included also all the midi files from the melodic elements like, melodies, bass, chords, and all the presets from Spire, Serum, and Sylenth VSTi.

Import the MIDI files into your DAW, see how the melodies were created, edit the melodies, and start to create your own melodies! You can also tweak the synth presets and make something more unique.

This pack gives you everything you need to make your hardcore track stand out from other tracks.

Please note: For synth presets you will need Serum v. 1.345, Spire v. 1.5.11 and Sylenth1 v3. 067 or higher.

What's more, everything you get is Royalty-Free! Buy once and use in any of your projects in as many combinations as you want. Compatible with all DAWs and suitable for genres such as Hardcore, Hardstyle, and more.
