

HighLife Samples is back with a new Happy Hardcore vol.2 sample pack! This is a must-have pack for hardcore and hardstyle producers. With hundreds of samples, loops, vocals, and synth presets, you'll never run out of sounds. This pack has everything you need to give your track the edge and showcase it over other tracks.

Inside this pack, you will find five construction kits, all sounds are labelled with their bpm and key scale for an easy workflow.

There are plenty of elements to help you finalize your tracks, including all the midi files from the melodic elements like melodies, bass, chords, and all the presets from Serum and Sylenth VSTi. How about editing the melodies and creating your own? Import the MIDI files from the pack, edit them inside your DAW and create your own unique melody. You can also tweak synth presets to make something more unique.

Please note: For synth presets, you will need Serum v. 1.345, and Sylenth v3. 067 or higher. What's more, everything you get is Royalty-Free! Buy once and use any of your projects in as many combinations as you want. Compatible with all DAWs and suitable for genres such as Hardcore, Hardstyle, and more.
