

After the success of Hard Future House Drops 1, our team decided to bring you a great new successor with even more and better elements than vol.1.

The pack contains very extensive detailed content, with not only all the stems, loops and one-shots but also every preset from Serum and Spire. This is the ultimate Future House sample pack!

If certain layered leads or basses contain more than 1 preset, then these additional presets are also included in the pack, it has a total of over 184 presets!

Just layer the associated presets of a certain key element and get the most impressive tones ever created in a Future House sample pack.

The construction kits include more than 250 dry & wet loops/stems, FX, One-Shots, Presets and more.

All Royalty Free!
