

Unleash the infectious rhythms of Afro House with **Afro House Essentials** from HighLife Samples! Designed for producers who want to elevate their tracks with authentic Afro House elements, this pack provides everything you need to create chart-worthy hits.

Afro House Essentials features 5 complete construction kits packed with high-quality **WAV loops** of Bass, Drums, Synths, and Vocal Chops. Every loop is carefully labeled with **Key Scale and BPM**, making it easy for you to integrate them seamlessly into your project.

Whether you're looking to create deep grooves, driving beats, or melodic textures, these loops will provide instant inspiration and help you get professional-sounding results faster.

Also included are **Serum synth presets** that allow you to customize and shape your sounds with precision. Additionally, the pack offers extra **WAV loops** like Drum Fills, Claps, Hi-Hats, and Percussions, ensuring your tracks have a polished and dynamic feel.

Please note that Serum 1.368 or above is required to use the presets.

For those who prefer to build their beats from scratch, **Afro House Essentials** includes a selection of **Drum Hits** and **Tonal Hits** for maximum creative flexibility. You can layer them into your projects or use them as standalone elements to craft your own signature sound. With the tonal loops and vocal chops also marked with **Key and BPM**, the creative process is smoother and more intuitive.

Whether you're a seasoned producer or just starting out, **Afro House Essentials** by **HighLife Samples** provides all the tools you need to bring the vibrant energy of Afro House to your productions. Dive in and let the magic happen!
