

Hello, Michal Ostafin here. This is my another Psy Trance template “ I See You”

This is the full track which will take you to the magical land of mushrooms and acid sounds.

I did my best to make this mix clean and professional with interesting sounds design and mixing techniques. Also in this project full Mastering is included Vocals were recorded and processed by me.

This template is 100% royalty-free and you can use any element in your future projects; Samples, Presets, Mixing, Mastering, arrangement etc are free to use.

I did my best to keep the design clean; Every channel has own color & name. Synth presets name is same as channel etc. Also, I add every presets and midi file to separate folder. This project uses the minimum of your CPU.

I hope this will help you to understand that project, You can always send me an email if you have any question or need help.
