

DESCRIPTION:

You don't need to suffer any more when you want to produce some jazz progression based track with complex jazzy chords, because we did all the hard work for you. We are proud to present to you our Jazzy Chord Progressions – super varied sample pack of jazzy keyboard loops and jazz midi chord progressions.

It includes 80 beautiful jazzy audio loops (acoustic pianos, rhodes, wurlies) and 80 corresponding midi chord patterns (8-bar midi loops). We tried to diversify the content of the pack as much as possible. Each audio loop in the pack has its own style and timbre of sound: mellow, bright, deep, aged (lo-fi), soulful. Also we've tried to cover most of the jazz subgenres: swing, ballad, bossa nova, samba jazz, fusion, jazz hop, neo soul etc.

All audio/midi loops are Key & Tempo labeled. Nevertheless the advantage of the midi files allows you to change the BPM or the Key, or the Sound (Preset) for your own taste. As well as the audio loops are not only inspiring as they are, but extremely recommended for sampling and chopping. That's why your creative possibilities are almost limitless.

The pack will ideally fit the creation of Smooth Jazz, Neo Soul, Lo-Fi Hip-Hop, Chillout, Downtempo, Future RnB, Advertising Music etc. So don't waste TIME, get this pack right now and let's jazz!

Please note: Drums, Bass, Guitars, Horns and Texture sounds in the Demo are not included in this pack. The DEMO contains the above-mentioned sounds exclusively for illustration!
