

Alkyne Tunes present the first release in 2019. This is 'Juna Vibes' - progressive house/trance template for Ableton 10, contains a full-length track.

The product is inspired by artists such as Audien, ARTY, Above & Beyond and other artists from Anjunabeats label.

Nasty basslines, punchy drums and warm supersaw chords - you can find all inside. In this product, apart from the template, you will also find samples and presets for Spire and Sylenth1.

Markers for each section of the track help to see which arrangement has this track.
