

Played by real musicians, played on real guitars, on real hardware synths, on a real bass guitar just like the old 70 and 80's Funk, Rnb and Disco was produced.

Inspired by Bruno Mars, Charlie Puth, Summer Walker and Earth Wind and Fire, this pack has all the lush leads and down tempo synths, Vintage Warm electric keys, funky guitars, pianos and rhodes, which will lead you to your next funky smash.

Everything has been carefully mixed and eq'd for maximal usability and impact, just drop the loops in your DAW or sampler and start producing your new track. You can even edit and chop the loops to make them even more unique.

In detail, you can expect 536mb of content with all audio at 24Bit & 48KHZ.

The pack contains 41 Combined Loops, 12 Piano Loops, 33 Guitar Loops and 24 Synth Loops.

All loops are key and BPM labelled for maximal flexibility.
