

With a signature sound helping to redefine modern EDM and influence the rise of creative exploration, Maddix turns his attention to the next generation of electronic producers. Fusing his style of big room, techno, and old school rave, you'll find the sounds from his latest and upcoming releases, containing all the ingredients to create the signature Sound of the Tribe.

The Sounds of Tribe Vol. 1 is a collection of over 1000 samples, 130 presets for Serum, and a Masterclass using only sounds from this pack.

With this collection of 130 presets spanning 10 categories, you'll find a range of presets for Acid, Bass, Chords, Drums, FX, Leads, Pads, Plucks, Synths, and Vox. Each preset has all four macros and modwheels programmed for easy tweaking and modulation options.

In this exclusive masterclass, Maddix teaches you how to create a song from scratch – only using sounds from this pack. Learn creative and technical approaches to making melodies, mixing, and mastering. (By the end, you'll have all the creative tools to make Big Room Techno.)

Welcome to the Maddix tribe.

Maddix presents Sounds of the Tribe Vol. 1 – Sample Pack
