

Heat up the dancefloors & hearts with our hot new tropical house sample pack. Bring these unforgettable tropical vibes & relaxing summer tunes to your tracks at any time of the year. With our Magic Tropical House Samples, you have endless inspiration for the endless summer atmosphere of your music!

The pack includes a large number of tropical house loops created with hardware synths, synth modules & the best virtual synths. Foremost among these loops we want to highlight mellow keyboards & pianos, mallets (kalimba, marimba, etc.), guitar loops, deep house basses, smooth synth melodies, sax riffs, flutes & more. As always, all synths, mallets, keyboards & bass loops have midi files. Of course, you'll also get a great set of tight tropical house drum loops (full, tops & stems) to pump up your mix.

In addition, we offer 39 selected synth presets for Xfer Serum, NI Massive & Reveal Spire, 10 vocal chop hits, and of course, 80 of the most suitable drum samples (drum hits), for creating your unique drum patterns. So to summarize, you'll get 30 the most atmospheric effects (uplifters, downlifters, white noises, impacts fx, etc.) to make your tracks sound completely finalized.

The Magic Tropical House Samples will ideally fit the creation of Tropical Pop, Deep House, Future Pop, Chillout & Chill Trap. If you are inspired by the music of such great artists like Kygo, Seeb, Klingande, Sam Feldt & Lost Frequencies grab this pack right now and let's party!
