The pack features over 1GB of content including Drums, Basslines, Melodies, Synths, Pianos, FX and most important – amazing female Vocal Acapelas. This time, we've included Dry, Wet and Raw versions of the Acapellas. We thought, it will be useful for you to have the raw, un-edited recording of the vocal stems, so you can apply EQ or FX exactly as you want, giving you maximum flexibility.

Everything you hear in the demo is included, 100% royalty-free. You have the license to use the sounds in your productions, sign to labels, distribute and take all the income to yourself.

Each Kit comes with Loops, One-Shots, Full Stems and MIDI files:

Loops: 4 to 8 bar audio files, coming as 24-Bit WAV. Simply drag and drop them into your DAW and manipulate to fit your project.

One-Shots: Single shots, short samples. Good to use in your favourite sampler.

Full Stems: These are long, arranged files. Simply import them into any DAW and you will get an already arranged piece, ready for further development.
