

'Melatonin' brings you five unique House Construction Kits inspired by Swedish House Mafia and the sounds of Anjunadeep. This pack is filled with vocal textures, punchy drums, vocal chops, atmospheric pad sounds and memorable melodies. All samples are as always 100% Royalty-Free and ready to drag and drop into your DAW to get inspired immediately!

Every single Kit is split up in the following parts:

**MIDI:** Each Kit has its own MIDI folder to give you the freedom of changing any melodic part or use your own sounds from any of your favorite soft synthesizers.

**One-Shots:** This folder includes all the single drum one-shots that were used for each Kit and allows you to drag and drop your favorite drum samples into your sampler and create new rhythms.

**Stems Dry & Wet:** Essential Audio Media exported all the stems as 16-Bit WAV files so you can drag and drop them at once into your DAW and you'll have the full Kit. They also added a Dry folder where the synths are without any effects so you can add you own reverb or delay settings.

**Loops:** All Stems are also available as 4-8 Bar loops exported as 16-Bit WAV to give you more freedom to make any stem file fitting into your project.

**Presets:** Inside this folder you'll find the presets used in the Kits. Essential Audio Media have included presets for Spire, Serum and Sylenth1 VSTi's.
