

**'What About: Melbourne Bounce Essentials' is the biggest and the craziest Melbourne pack ever created by W.A. Production. Inside you will find 12 mind-blowing Construction Kits totalling more than 1 GB of the freshest melodic, drum, vocal, effect and MIDI content. Also included are over 130 offbeat bass samples & kicks, plus over 25 presets. All 100% Royalty-Free.**

In detail you'll find more than 360 audio stems and loops. These files have been made with all the precision and advanced production techniques you've come to expect from W.A. Production, bringing you fat sounds and wild melodies.

The content in this pack has been inspired by producers such as TJR, Deorro, Vinnai, Redfoo, R3hab and many others. Let these Kits inspire you or simply use the samples as-is. Offbeat bass samples are divided into 10 folders, each folder containing a full octave of samples.

Drop tracks are rendered dry & wet, with and without sidechain to give you maximum freedom. Everything is 100% Royalty-Free and ready to drag and drop right into your mix. Also included are 2 tutorials with FL Studio projects and samples.
