

Big EDM invites you on an epic journey with Melodic D&B Sapphire. Are you looking to create a mix that pumps you up with motivational energy? Melodic D&B Sapphire will entice and excite you with soaring synths, chest gripping keys, earth-shaking bass lines, dramatic breaks and night drive leads. Unleash this pack to experience pure electronic Melodic D&B adrenaline.

We've broken down tracks from our top producers into 6 construction kits. These kits give you the stems from each track. You can slice them, dice them, mix and manipulate your way to a reconstructed Melodic D&B chart-topper.

Want to see how it's done? For all you FL Studio users out there we have included the project files for the 6 construction kits that you will find inside. All of our techniques, tricks, tweaks, and settings will give you an inside look into the minds of our best producers. Remix, deconstruct, reconstruct your own version of Melodic D&B. On top of the 6 kits, we threw in 166 additional sounds and 47 extra presets for Serum and Sylenth1. Melodic D&B Sapphire from Big EDM gives you almost 3GB of amazing Melodic D&B audio samples presets for Serum and Sylenth1, and FL Studio project files that put the power of creation into your hands.

FL Studio Project files require FL Studio 20 and higher. All audio samples and Construction Kit stems are compatible with any DAW that can import WAV format.
