

'Melodic Deep House Sessions Vol 1' brings you 5 Construction Kits inspired by artists such as Ben Böhmer, Meduza, Camelphat, Nora En Pure & Tinlicker. This pack is filled with everything you need as a producer and can be also used for Progressive House & Melodic Techno.

Every single Kit is split up into the following parts:

**MIDI:** Each Kit has its own MIDI folder to give you the freedom of changing any melodic part or use your own sounds from any of your favorite soft synthesizers.

**One-Shots:** This folder includes all the single drum one-shots that were used for each Kit and allows you to drag and drop your favorite drum samples into your sampler and create new rhythms.

**Stems Dry & Wet:** Essential Audio Media exported all the stems as 24-Bit WAV files so you can drag and drop them at once into your DAW and you'll have the full Kit. They also added a Dry folder where the synths are without any effects so you can add your own reverb or delay settings.

**Loops:** All Stems are also available as 4-8 Bar loops exported as 24-Bit WAV to give you more freedom to make any stem file fitting into your project.

**Presets:** Inside this folder, you'll find the presets used in the Kits. Essential Audio Media have included presets for Spire and Sylenth1 VSTi's.
