

Melodic Trap Species from Big EDM is the ultimate pack for creating an epic and groundbreaking melodic trap that will shine above the rest. Inspired by such artists as Post Malone, Faze, and We are Fury, Melodic Trap Species delivers professional progressions and sequences that are so powerful you will feel the hairs stand up on the back of your neck. Loaded with progressive trap beats, gripping chords that sustain with a synced vibration and off the hook percussion patterns. Not only will you get our top industry ready sounds, but Big EDM has also added 5 construction kits ranging from 85-150bpm in 4 different minor keys.

Our construction kits come with 1 completed track each that has been separated into song sections such as chorus, build, intro, bridge as well as individual instrument tracks. Now you can control the arrangement by slicing and chopping adding or removing length, changing the tone and adding effects. These kits are designed to build your confidence as a beginning producer or help save time for professional producers.

The additional sounds will give you even more control. With a wide variety of muted plucks, slapback plucks, gentle choirs, intense arps, rolling bass lines, piano and organ sounds, 808's and even down to fx and one hit. You will find that Melodic Trap Species has everything you need to construct a heavy-hitting and mind-blowing melodic trap. Let us give you the sounds to create a trap with solid melodic power, pick up Melodic Trap Species from Big EDM.

Compatibility: The construction kits are compatible with any DAW that can import the use of WAV audio samples and MIDI sequences.
