

With Armin Van Buuren holding the 3rd place at DJ Mag, it means that Trance it's here to stay and not go away. Trance is known for having that pumping baseline, wide arp synths, groovy drums and complex mixing techniques.

The template **Mirage** is inspired by names like Ferry Corsten, Heatbeat, Neelix, Doktor Froid, Armin Van Buuren and others. We wanted to make sure that you guys can learn the secret techniques behind those big producers.

The template is packaged with MIDI files, drum loops, one shots, FXs, epic synths and trance style melodies ready for that big room stage.

This is the perfect template if you want to learn the Trance genre and create your next Trance hit song.
