

**'Modern Hyper Trance'** by Elevated Trance is a brand-new series featuring 20 Outstanding Modern Hyper Trance Construction Kits with WAV, MIDI, and Presets.

Hyper Trance is a modern offshoot of electronic dance music that surfaced in the early 2020s. It marries the lush, melodic buildups of Y2K-era trance with the hard-hitting energy of techno, hyperpop and drum-and-bass. Born on niche music sites, it weaves soft, airy intros into sudden surges of high-velocity drops—celebrating both nostalgic trance motifs and today's maximalist sound design.

**Tempo & Drive:** Tracks usually clock in between 140–160 BPM, propelled by punchy kick-drum patterns and rolling basslines borrowed from drum-and-bass.

**Synth Layers:** Ethereal pads and sweeping chord progressions build tension, while saw-tooth leads and staccato stabs deliver euphoric climaxes.

**Dynamic Builds:** Most songs open with atmospheric passages, evolve into a euphoric breakdown, then hit a tech-trance-style drop for peak-time impact.

**Digital Effects:** Heavy reverb, delay and modulation create expansive soundscapes. Glitchy edits, pitch-shifted vocal chops and brief samples add a futuristic edge.

By fusing early-2000s trance euphoria with cutting-edge electronic trends, Hyper Trance serves as both a nostalgic revival and a forward-looking genre. Its ability to balance emotive melodies with high-octane rhythms suggests plenty of room for innovation—whether through pop collaborations, multimedia installations or further subgenre offshoots—cementing its place in the evolving dance-music landscape.

Inspired by all the top Hyper Trance artists and all the top Hyper Trance festivals bringing you the best quality tools for your productions. These kits will give you a great start to your next anthem or could be a great addition to your existing projects to give you that edge you've been looking for.

The kits contain three folders MIDI, Wav & Presets, the Wav folder contains all the stems needed to re-create what you hear in the demo for that kit, and the MIDI folder contains a Multitrack MIDI which will load all MIDIs for that kit to change notes or sounds when you are creating your new anthem and the Preset folder contains all the spire presets used with the MIDI files for each kit.

The presets in this pack are **FREE** they are used as a starting point for each kit but may contain duplications or similar sounds.

**Product Details:**

20 x Modern Hyper Trance Construction Kits (WAV, MIDI & Presets).

All WAV Files are 24-bit

MIDI Files for Each Kit. (Multitrack MIDIs).

Wet & Dry Wav Stems for Each Kit.

Demo Mix Down of Each Kit. BPM 145 – 165 & Key Info Labelled on Each Kit Folder.

Professionally Produced.

100% Royalty-Free.

499 x Total Files.

346 x Wav Files (24-bit).

20 x MIDI Multitrack Files.

133 x Spire Presets.

1.73GB Zipped. | 2.37GB Unzipped.

**Synth Presets Compatibility**

Please Use Spire 1.5.18 Or Higher.
