

Modern Tech House 2 is a sound pack that takes your music production to the next level. Whether you're a Tech House or electronic dance music producer looking to spice up your tracks, this comprehensive sound pack covers you. With five meticulously crafted construction kits, Modern Tech House 2 provides a wealth of creative resources to elevate your music.

Dive into a world of pristine sound with 24-bit/44.1kHz Wav Loops, offering unparalleled audio quality to enhance your compositions. These loops are designed to be both inspiring and versatile, enabling you to explore a wide range of sonic possibilities.

Including MIDI files ensures you have complete control over the melodies, allowing for endless customization and creativity in your productions.

But that's not all, it goes even further by delivering cutting-edge Serum Presets, a favorite among electronic music producers. These presets offer a multitude of sound design options, allowing you to sculpt your own unique sonic landscapes.

Please note: To run the presets, you will need Serum 1.357 or higher.

The pack is rounded out with a collection of high-quality Drum Hits, giving you the essential building blocks for crafting powerful beats that will keep your audience dancing.

All sound pack content is 100% royalty-free content. You can use these sounds in your music productions without worrying about copyright issues, allowing you to release your tracks and share your creativity with the world.

Whether working on a club banger, a festival anthem, or an underground masterpiece, Modern Tech House 2 equips you with the tools to make your music stand out. Elevate your tracks with the latest sound pack that combines the best of Tech House with the versatility to fit any electronic dance music genre.

Get ready to unleash your creativity and make waves on the dance floor!
