

With two GRAMMY® nominations, multiple sold-out tours, and with the recent release of his sixth studio album, Morgan Page is widely acclaimed for his musical mastery. Continuously motivated by his fans, Morgan Page wanted to give back, and has developed a Soundset for Spire, a software synthesizer by Reveal Sound, to spearhead the next era of producers and music.

The soundset contains 128 presets spread across 10 patch categories: Arps, Bass, Brass, Chords, Drums, FX, Leads, Pads, Plucks, and Synths. Distinguished for his wholehearted approach to music, Morgan has defined each preset to have its own character and individuality. Each patch is optimized for CPU performance and assigned modwheel controls for multiple sound-shaping variations. You can further explore new sonic dimensions by activating the Muted FX slots for fresh and unpredictable possibilities.

**10 Main Preset Categories:**

ARP (9)  
BASS (49)  
BRASS (2)  
CHORD (3)  
DRUM (8)  
FX (7)  
LEAD (22)  
PAD (14)  
PLUCK (9)  
SYNTH (5)

128 presets; programmed by Morgan Page

Core instrument patch mapping and programming

All patches assigned intuitive modwheel parameters and all four macro controls for easy tweaking and multiple sound variations

Preset format(s): .swzip (Full Bank) + .spf2 (Individual Presets)

Note: Presets Require Full Retail Version of Spire 1.5.3 or later
