DESCRIPTION

Almost every patch within Mystical Universe is assigned to the Modulation Wheel. A tremendous amount of care and detail went into setting up the modulation assignments to greatly expand on the patches playability and depth of expression. Many of the Macro's craft the sound in such a way as to sound like an entirely different preset, so in effect the macros are morphing between patches in some situations. This is achieved with extensive modulation destinations to morph the oscillators wave tables and/or adjusting the FM amount between the oscillators. It was great fun design and more importantly, they sound great.
