

New Age Progressive House it's a sample pack for producers to make their productions even more creative. This sample pack contains a vast selection of essential tools that you can learn from and/or use in your own productions. These five Construction Kits will give you all the sound loops and layers that go into making a professional Progressive house track.

Inspired by artists like Dubvision, Jac and Harri, Dannic, Manse, and more. Inside this sample pack, you can find 24-Bit WAV loops of melodies, chords, bass, drums, and FX.

You also get all the synth presets that we used to create the sounds of this sample pack. Plus, we include all MIDI files for endless inspiration and ammo for your next Progressive House weapon.

MIDI files are a quick way to edit and create your own melodies in minutes, assign your favorite VST or hardware, and import the MIDI files, without any audio limitations.

Please note: For synth presets you will need Spire v1.5 and Sylenth v3.067 or higher.

What's more, everything you get is Royalty-Free! Buy once and use in any of your projects in as many combinations as you want. Compatible with all DAWs and suitable for genres such as Progressive House, EDM, and more.
