

Cloudy Samples is proud to present the **"New Dark Sound"** - highly detailed sample collection engineered for producers seeking to traverse the outer edges of atmospheric dark ambient composition. Sculpted with spatial detail and tonal decay, this suite emerges as a hybridized archive of both organic unease and synthetic ritualism - balancing abstract musicality with avantgarde sound sculpture.

The core of this collection are 5 fully developed construction kits, including a complete set of WAV loops, MIDI files and Spire presets, all organized for easy use. Every kit has been carefully constructed to give you maximum flexibility - whether you want to work with ready-made sounds or break things apart and rebuild them in your own way.

Also included is a large set of foley and misc samples - these sounds add depth, realism and tension, giving your productions a rich, tactile layer of detail, ready to work with provided MIDI pads. The additional drum loops aren't your typical beats - they are slow, textured and often irregular. With distorted hits, deep mechanical thumps and experimental patterns, these loops are built for atmosphere and intensity rather than traditional rhythm.

Please Note: To access synthesizer presets, you need an up to date Reveal Sound's Spire.

Features:

- 5 Construction Kits
- 29 WAV Loops
- 13 MIDI Files
- 11 Spire Presets & Soundbank
- 5 Mixdown Examples
- 45 Drum Loops
- 40 Foley & Misc Samples
- 12 MIDI Pad Sequences
- 156 Files in Total
