

We are terrifically happy to present the Nightmare Horror Cinematic Ambient. As you can understand from the title this is a horror music sample pack. If you need some bloodcurdling musical cues, dark atmosphere beds or creepy music trailers this pack is definitely for you! So, what's exactly inside?

You'll get 200+ horror textures, construction kits, atmospheric pads, effect loops created in different keys and tempos. Complexed Texture Loops folder includes 28 layered textures with 28 stem folders. In each folder you'll find separated loops of each cue (each texture) like effects, basses, melodies, atmospheres etc. Atmosphere Loops folder includes 10-bars loops of atmospheric beds (pads) and midi files for them. Sound Tracks folder includes 3 fully detailed horror soundtracks with mixdown files and fully detailed construction kits.

It's no matter if you want to choose the right creepy music mood for your YouTube video, or you are going to produce some serious horror movie soundtrack, or you just want to create some dark gloomy song, this pack with no doubt will be useful for you!

As always all sound sources are 100% royalty-free and you can use them for music production, commercials, video clips, background music, film scores, TV, radio and more. Grab this pack that has this frightening cinematic mood and start to scare your customers with true horror sounds!
