

“Euphoric Uplifting 2” We continue our adventure by extremely atmospheric sounds and tension-building arrangements.

Feel the extraordinary atmosphere created by pads and leads then lift you above the clouds with an extremely strong kick and deep bass.

Don't worry about the power of your PC This project uses a minimum number of external plugins which ensures incredible stability and makes learning easier.

Also, everything on the playlist and mixer was marked with color and name.

Let's check what is inside:

- Ableton Project
- FL Studio Project
- Cubase Project
- Logic Pro Project
