

Mainroom Warehouse is excited to release 'Outrun Zone' this new retrowave series brings more nostalgia back to the present featuring 10 x Construction Kits (WAV/MIDI/PRESETS).

If you're into those nostalgic moments in time and a big fan of the Synth/Retrowave era then this pack is for you, featuring drums, percussion, arps, basses, chords, leads, plucks, pads, MIDI files, Spire and Serum Presets for your ultimate producing experience, everything is here to create your next Synth/Retrowave track.

These songstarters give you a great start to your next track or could be a great addition to your existing projects to give you another direction or dimension to your tracks.

Kits

Each kit includes all drum parts from kick (Compressed & Not Compressed) to several percussion loops, wet and dry loops for all the main parts also including filter up and down loops wet and dry, all MIDI parts are included and a mix-down demo for each kit, folder structure is smartly arranged for ease of use also presets from Spire and Serum are included for each kit to replicate the sounds from the demo you have complete control, each kit gives you song ideas to start your next smash hit.

Advantages With MIDI & Presets

With MIDI you have the ultimate in flexibility being able to edit notes, velocity etc and assign your own sound, these are easily imported to any DAW either Drag And Drop or Import MIDI Options in your DAW.

These MIDI files are also a great source of inspiration for those writer's block moments even the pros need motivation and inspiration from time to time, you can also learn how these have been constructed and change/tweak the MIDI to your own taste.

With the included presets you have complete control and can replicate the sounds you hear and that have been rendered for you to use in each kit, you can tweak and do what you want to achieve your own sound.

About Presets In This Pack

Please note to beginners if you do not own any of the above VST Instruments or only own one the supplied WAV files are in each kit to be used instead of a VST instrument or you can still use any virtual instrument of your choice with your own presets or bought presets to assign the vst instrument to the MIDI files and create your own sound, by all means use the included VST Instruments presets if you have them royalty-free.
