

«PUNCH» SPIRE KICK PRESETS

We present you a new breakthrough in the kick's synthesis. We have created for you 64 kicks with powerful Reveal Sound Spire, which allows you to use synthesized and pure presets without samples.

We've made this product using the internal effects of Spire synthesizer processing so that you can save your processor's memory and use presets without third-party plug-ins.

Together with the presets, we have created for you 100 Clicks, which you can use together with "PUNCH" Spire kicks, and thus get a huge amount of dense and commercial beats with the different character of sound for many musical styles.

The demo was created solely with the kicks from this product without using third-party plug-ins for processing.
